Passionate product designer and front-end developer with a keen eye for aesthetics and seamless user experiences. Committed to crafting inspiring designs that solve real-world problems and leave a positive impact.

EXPERIENCE

Product designer — Kardinal *(Full time)*

Feb 2022 - Present . Yaba, Lagos Nigeria

- **UI Design Excellence:** I created intuitive and engaging user experiences that align with the brand identity and elevate the overall product perception.
- **Professional Execution:** Proficiently execute the design and implementation of user flows and interactions to create seamless and intuitive user experiences.
- **Design Maintenance:** Diligently maintain, update, and improve existing designs to ensure they remain relevant and in line with user needs and industry standards.
- **Layout Implementation:** Skillfully implement layouts, translating design concepts into functional interfaces that meet both aesthetic and functional requirements.
- **Prototyping:** Expertly utilize prototyping tools to create interactive prototypes, facilitating efficient design iteration and collaboration with stakeholders

UI/UX Design — Emusoft Inc · *(Contract role)*

2023 - Present. Lagos state

- Collaborated with clients and stakeholders to understand project requirements, user needs, and design goals.
- Created visually appealing and intuitive user interfaces for web and mobile applications, ensuring a seamless user experience.
- Translated wireframes, mockups, and prototypes into polished and responsive designs that align with project objectives.
- Conducted user research, usability testing, and gathered feedback to iterate and enhance designs for optimal user engagement.
- Developed design systems, style guides, and design documentation to ensure consistency across platforms and enhance the development process.

VOLUNTEER WORK/OPEN SOURCE CONTRIBUTIONS

Product design — NotJustEvent

July 2023 - August 2023 . Lagos state

- Designed and developed the waitlist landing page for the startup's upcoming product launch.
- Collaborated with the marketing team to create a visually appealing and user-friendly design.
- Implemented responsive design principles to ensure seamless user experience across different devices.
- Conducted A/B testing to optimize the page for increased conversion rates.
- Utilized React, CSS, and JavaScript to code the landing page.
- Analyzed user feedback and iteratively improved the design to enhance overall performance
